

Textbook Information

Math 99 – Intermediate Algebra with Geometry
Fall 2011 - Section ABL2

The class's textbook policy is as follows. **Students must have an intermediate algebra book but it does NOT have to be the official textbook designated for this course.** This policy is intended to lower textbook costs. Usually students can purchase a textbook for the course under \$40.

The textbook for this course is the 4th edition of Beginning and Intermediate Algebra, by Martin-Gay, (Pearson, 2009). Students are welcome to use the any previous edition at a much lower cost.

Students also may use other intermediate algebra books. These include any edition of intermediate algebra textbooks written by:

Charles P. McKeague
Margaret Lial
Richard N. Aufmann
Marvin L. Bittinger
Miller, O'Neil, and Hyde
